

FOR IMMEDIATE RELEASE (TSX V Symbol: AUX)

Feb. 23, 2009

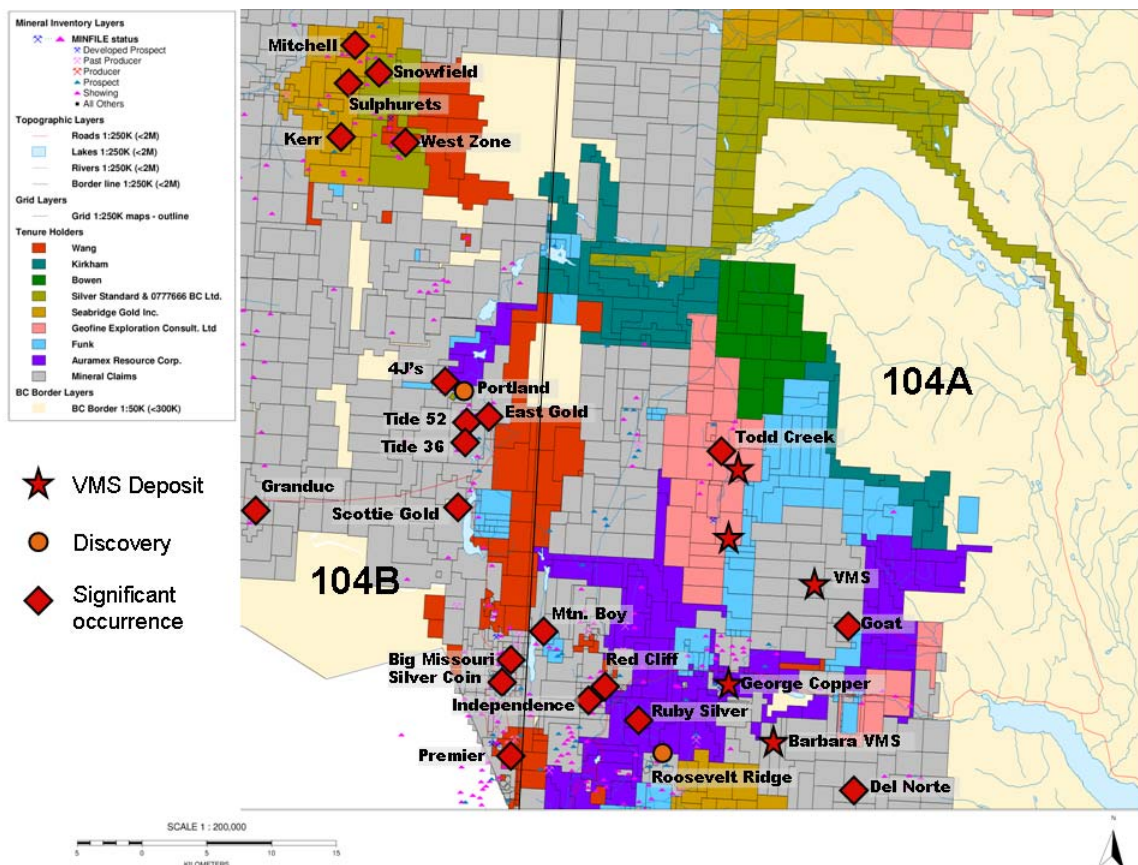

Property Update

Stewart Project, British Columbia

Auramex Resource Corp. (the "Company") is pleased to note recent developments in the Stewart Camp where the Company holds 30,000 hectares of mining claims. Two companies have announced base metal discoveries at locations near ground held by Auramex.

Mountain Boy Minerals Ltd. has reported shallow zinc, lead and silver mineralization on its BA claims situated south of the Bear glacier. Mountain Boy's geologist has told the Company's geologist that their discovery is a mineralized horizon that is projected to extend on to Auramex ground.

A significant volcanogenic massive sulphide environment discovery has been announced by Goldeye Explorations Limited, Polar Star Mining Corp. and Intuitive Exploration Inc. at Todd Creek, with a reported 7 kilometre strike length. Auramex' ground lies to the south and west of the Todd Creek Discovery.

This new information provides more targets for an exploration program for the 2009 season, subject to financing, in addition to the previously identified drill target at Georgie River and the further exploration needed at the Tide North property and the Surprise Creek claims.

The technical information in this news release has been reviewed and verified by David St. Clair Dunn, P.Geo., a qualified person under National Instrument 43-101.
