## Property Updates

### Magenta Property, Sinaloa, Mexico

Auramex Resource Corp. (the "Company") announces that exploration will be resumed on its Magenta property in Mexico starting in October/November, 2005. Soil sampling over approximately 400 metres by 200 metres will be undertaken to the north of the 2004 diamond drill hole LP-04-03, where 54 metres assayed 0.08% copper and 169 ppb gold. (A September 27, 2005 news release incorrectly reported the copper grade as 0.8% instead of 0.08%.) This area of the 5600 hectare property, referred to as the LP copper/gold porphyry, lies 0.5 kilometre east of a previous gold producer, and its proximity is considered to enhance the prospectivity of a disseminated gold zone in the area to be sampled.

If David Dunn, P. Geo., the Company's Qualified Person ("Dunn") determines that soil results are favourable, a diamond drill program would be considered, subject to financing. Additionally, the El Fierro target would be re-drilled as part of the same drilling campaign. As previously reported, diamond drill hole EF-04-01 has been interpreted to have ended short of the nickel/cobalt/gold breccia zone. Reported assays at the El Fierro pit are 2.4% nickel, 0.9% cobalt and 1 gram gold per tonne across 1.6 metres.

### Ymir Property, BC

Twenty four holes were drilled at the Summit and Old Timer locations, testing one kilometre of a 2.8 kilometres known quartz vein structure crossing the property. Fluorescent rock did not assay for tungsten. Dunn is nearing completion of an NI 43-101 compliant report on the drill results. The report will be available for review in due course on Sedar ([www.sedar.com](http://www.sedar.com)) and on the Company's website ([www.auramex.com](http://www.auramex.com)).

### Stewart Property, BC

The Company intends to conduct an initial exploration on this newly acquired property (reported in a news release dated September 27, 2005) in October, 2005, costing approximately \$25,000.

For further information concerning this announcement, please contact Heather Conley, President and CEO, at (604) 682-5123. For general information on Auramex, please contact Robert A. Young and Associates at 1-877-626-2121 or locally 604-682-5123, and/or refer to the Company's website, [www.auramex.com](http://www.auramex.com)
